

Multi Building Pre-Packed Building Mortar High Strength Non-Shrink Mortar

Description

Multi Building Mortar is a Pre-mixed blend of selected and graded sand fillers and cementitious powders to produce a Non-Shrink Mortar.

Advantages

- * Non-Shrink - A dense Mortar that hardens free of bleeding, settlement or drying shrinkage.
- * High Early strengths
- * Reliability - Premixed high quality mortar thus eliminating problems frequently experienced with site blended materials

Directions for Use

Surface Preparations

- * All surfaces should be sound, clean and free of contaminants
- * Do not apply onto painted or gypsum surface
- * Concrete and render surfaces must be fully cured

Mixing

- * Add the powder to clean water and mix to a creamy consistency
- * Allow the mix to stand for a few minutes and re-mix before use
- * Use within 2 hours

Application

- * Mortar should always be placed onto a solid masonry or concrete surface
- * Using a trowel, apply the mortar mix to the relevant surface and firmly bed the masonry material into the mortar
- * Ensure that the masonry unit (Bricks ect) is in full contact with the mortar.

Coverage

- * Coverage will vary depending on surface conditions
- * Yield per 40kg bag of Pre-mixed mortar is approximately - 18 litres - 25kg bag - 12 Litres
- * Potable water per 40kg bag is ± 6 litres
- * Cement / water ratio will vary from 0.85 - 1.0

Watch Points

- * Use only as directed
- * All surfaces to be dampened down before application

Cleaning Instructions

- * Clean all mixing and application equipment with water immediately after use
- * Clean any spatters or spills with water before material sets

Environmental and Safety Precautions

- * Multi Pre-Packed Mortar contains Portland cement and is alkaline on contact with water.
- * Avoid splashing into eyes or contact with skin

- * Use the required protective clothing, gloves and goggles
- * In case of eye contact, flood eyes repeatedly with water
- * Wash hands thoroughly after handling

Packaging

Multi Pre-Blended Mortar is supplied in 40kg / 25kg Polypropylene bags

Guarantee

MCC LIMPOPO's products are guaranteed when used in accordance with correct product application and instruction procedures. For further technical information please contact MCC LIMPOPO

Quality Assurance

Multi Pre-packed Building products are manufactured under strict quality control procedures and tested in accordance with proven quality testing procedures and standards
